PREFACE.

IT is customary for the Directory publisher to estimate from year to year the population of the city, basing it upon the number of names which the Directory for the year contains. In view of the fact, however, that the United States census was taken this year and will be given to the public shortly, we regard it as unnecessary for us to make any estimate other than to state that the population of Buffalo is in the region of 400,000. The 1900 Directory contains 127,000 names, or 4,000 more than the 1899 issue.

BUFFALO STREET DIRECTORY.

EXPLANATION.

The names of the streets are in alphabetical order, giving, as near as possible, the course which they run, and enumerating streets which cross the same in the order in which they occur. The streets in the city were renumbered in 1868, and the following method was adopted: From the starting-point of the street, measuring along the line of the street, twenty feet; making No. 1 to the right-hand side, and No. 2 to the left-hand side, and so on, each twenty feet, whether there be a building, a vacancy or a street crossing. The numbe[illegible]n one corner has been given, so that a person wishing to find 499 **Main Street,** on consulting the Street Directory, finds that the right-hand corner of Main and Mohawk is No. 487, consequently the place he seeks is only a few doors above.

Buffalo Law School.

(Department of Law of the University of Buffalo.)
933 Ellicott Square.

Organized June, 1887, under the auspices of the Judiciary and the Bar of the City of Buffalo. The faculty and lecturers upon special topics are either judges now upon the bench, or lawyers in active practice, who will bring to the discharge of their duties ripe experience, made more valuable by their constant engagement in the decision and trial of the many new questions of law which rise in the practice of their profession.

The Buffalo Law School was organized in the spring of 1887, by the late Hon. Charles Daniels, and other prominent members of the Buffalo Bench and Bar.

The advantages of the School are great; its power as an educational factor is recognized and approved by the leading educators of the State. Students taking their course of instruction in this department will receive the degree of Bachelor of Law from the University of Buffalo.

The course of instruction to be followed will occupy two years' time. Each year will be divided into two terms of seventeen weeks each, beginning the last week in September, and closing the last week in May.

The situation of the School at the City of Buffalo is a peculiarly favorable one. During most of the college year three Courts of General Jurisdiction are in session, in which the trial of important cases often by distinguished counsel are constantly in progress.

Special terms of the Supreme Court are held daily, at which judges sit to hear and determine questions touching almost every branch of the law. Terms of the United States Courts are also held in the United States Court rooms.

Students will thus have the opportunity to observe the trial of causes before judges and juries, and to hear the argument of legal questions in appellate courts.

All communications should be addressed to E. Corning Townsend, Secretary and Treasurer, 37 White Building.

ONE INTEREST! ONE ORGANIZATION!
ONE MANAGEMENT!

THE BRADSTREET COMPANY gathers information that reflects the condition and controlling circumstances of every seeker of mercantile credit. Its business may be defined as: "Of the merchants, by the merchants, for the merchants." In procuring, verifying and promulgating its information, no effort is spared, and no reasonable expense considered too great that the results may justify its claim as authority on all matters affecting commercial affairs and mercantile credit. Its ramifications are greater, and its business larger, than those of any similar organization in the world conducted in one interest and under one management. Its offices and connections have been steadily extended, both on this and other continents, and it furnishes information concerning mercantile persons throughout the civilized world.

Subscriptions are based on the service furnished, and are available only by reputable wholesale, jobbing and manufacturing concerns, and by responsible and worthy financial, fiduciary and business corporations. Specific terms may be obtained by addressing any of the Company's offices.

It reaches every civilized region on the globe, thus giving its advertisers a most extensive and desirable publicity.
